

# WISH NURSING INNOVATION GRANT COMPETITION: APPLICATION GUIDANCE

Please find below guidance of what to include in the research proposal section of your application, including word-limits for each question.

## RESEARCH PROPOSAL

### **Project title \***

*The title of the research should adequately summarise the content of the research proposal and will normally reflect the specific question to be addressed by the research (max 50 words).*

### **Project summary \***

*A clear summary outlining the reasons for undertaking the project, its scope, aims and expected impact (max 500 words).*

### **Literature review \***

*A summary of current published work in the field of study and the context and size of the problem being researched (max 500 words).*

### **Study design \***

*This overview should contain sufficient detail of the research methodology to allow critical assessment by reviewers and to justify the need for funding (max 1,000 words).*

### **Timeline and costings \***

*Provide a timeline for the project indicating when key milestones will be reached, along with a detailed account of how funds will be used.*

### **Research team \***

*If undertaking this project within a wider research team, please describe the expertise of the research team and their contribution to the proposed research (max 500 words).*

### **Lead applicant CV \***

*Abridged CV of lead applicant (max 1 page).*
